(54) Title: TRICK PLAY BEHAVIOR CONTROLLED BY A USER

400

(57) Abstract: A method and apparatus for providing user controlled implementation of trick play modes of operation of digital video data is disclosed. A user interface (400) is provided on a video screen. The user is prompted to select a speed (402) on the user interface (400) at which the trick play mode will operate. The user is then prompted on the user interface (400) to select how the selected speed is implemented. Alternatively, a list of possible implementations (predefined modes of operation) are displayed on the user interface (400) from which the user can select the desired mode of operation.

* Special categories of cited documents :

- "A" document defining the general state of the art which is not considered to be of particular relevance
- "E" earlier document but published on or after the International filing date
- "L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)
- "O" document referring to an oral disclosure, use, exhibition or other means
- "P" document published prior to the international filing date but later than the priority date claimed

- "T" later document published after the International filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
- "X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone
- "Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art.
- "&" document member of the same patent family
